ELECTION DAY PROGRAMME

AFTERNOON

12.15—Schoolmen meet in front of school and parade to Hart House
1.00—Polls open
2.45—Polls close

As is usual the School Elections will open with a big bang at 12.10 in front of the School Building in the form of a parade to Hart House. The pipers will be there to try and drown out the shrill shouts of the campaigning candidates and Hart House has promised us an extra special lunch fit for a School Man.

Inside the House the Great Hall will provide the scene of action and the pipers will again entertain us with the mournfull music of the highlands. It might even be that a few campaign promises might be aired at this time, to be listened to in awe and silence by the loyal sons of School. Having finished the meal a sing song will fill the air and the pretty blue colour resulting will be due to smoke, we hope. Who can tell, perhaps an unsuspecting Arts or Meds man may saunter by and be only too pleased to furnish a little entertainment. Joy will flow unbounded so you can't afford to miss it.

At 1.00 p.m. everyone will return to School to get in at the first of the voting.

EVENING

7.00—Sports Programme —Hart House Gym
9.00—Refreshments in Great Hall
Election Results

The evening programme will begin with a sing-song in the east Common Room at 7.30 p.m. The School Orchestra will be there to enchant freshmen and senior alike with their scintilating melody.

At 8.10 we will proceed via the athletic wing to the big Gym where boxing and wrestling bouts will be presented. Both members of the victorious School Assault team and some less schooled members of the fistic fraternity will take part, the latter should offer some interesting if not expert diversion. It is even rumoured that one of the now famous blindfold bouts may take place so be sure and come and see the fun.

At 9.00 everyone will proceed to the Great Hall again by way of the Athletic wing where the Election results will be presented. The School Orchestra will be there also to lead in the singing of the School songs and to present some of their swingiest tunes. Of course there will be a FREE LUNCH to one and all so be sure and come out and take advantage of the marvelous opportunity for free fun and food.

Pres. 1st Year 1936-37

"JEEP" DEWAR

2nd Vice-President Engineering Soc.

Sec. Eng. Soc. 1937-38

The Toike Oike

PLEASE

Next Friday is the day of school elections, a day when revelry is at its height. There is no other occasion on the campus when undergraduates of any faculty let themselves go with such a fury. Without any attempt at trying to preach or to be an old kill-joy, we feel it our "boundin' duty" to remind all Schoolmen of the danger of invading other faculty buildings. Regardless of how much fun we get from it or what our opinions are, the Board of Governors of the University are solidly against any such actions; so much so that a three hundred dollar fine was imposed upon us for entering University College last year and humiliating the poor "dears" who attend those stately halls. Spread over the whole faculty, it only amounted to about fifty cents each, which wasn't much, but the point remains, it might be more this year if such an event occurs. Not only that, but our fun and frolic in the years to come might be seriously handicapped and school elections reduced to a mere nothing.

So here's hoping everyone will see that it is no cause of his that such a fine is again imposed.

* * *

POLLING STATIONS ALL IN ENGINEERING BUILDING

1st year—Top Floor
2nd year—Second Floor
3rd year—Main Floor—Machine Design Lab
4th year—Main Floor—Main Hall

HOW TO VOTE!

Each Schoolman shall go to the polling station for his year, where he shall receive the proper ballots from the returning officer and have his name checked off the list there. After marking his ballots carefully, he shall return them, *UNFOLDED,* to the returning officer, who shall deposit them in the ballot box.

The Hare-Spence system of voting is used. In this system, the voter marks opposite the name of the candidate for whom he wishes to vote, the figure 1, while opposite his second choice he marks the figure 2, and opposite his third choice the figure 3, and so on. It is essential that the voter mark a figure beside every candidate's name, or the ballot will not be accepted.

When the candidates first choice are added, the candidate with the lowest number goes out, and his "second choices" are distributed among other candidates, counting as first for whom they were cast.

This method of elimination is followed until only two candidates are left, and the one with the largest number of votes is declared elected.

USE YOUR RIGHTS! VOTE!

A plea to Schoolmen to vote is rather a waste of time since there has always been a high percentage of the registration who have voted. In fact the main worry of the returning officer has been to prevent some of the more enthusiastic men from voting more than once. It is the right of every Schoolman to vote and show his preference for the man who will represent him the following year and hold the purse strings on the spending of the money which we contribute to the various organizations. It is only natural therefore that a large vote is always registered.

Help make a new record this year by turning out and swamping the polls, it is your right so turn out and exercise it.

TORONTONENSIS REPRESENTATIVE

Applications are now being received at the Eng. Soc. Office for Torontonensis Rep. for next year.

"What's this?"

"A Portrait of a Lady."

"What! And you call yourself an artist?"

"Oh, no! I'm a woman hater."

Drunk: Look at that sign.

Drunker: Whazzit shay?

Drunk: Shays ladies ready to wear clothes.

Drunker: Well, ish damn' near time, ain't it?

* * *

First Indian: Let's go on the warpath.

Second Indian: We can't. It's bein' paved.

PAUL C. ANDERSON FOR PRESIDENT OF THE ENGINEERING SOCIETY

The carrying out of the functions of the Engineering Society has become more or less automatic due to the contributions of each succeeding executive. However, this does not alter the fact that a capable head is necessary to get things under way in the proper manner and to be on the job in case anything disastrous occurs. Most situations require only common sense and logic but in a position such as this, experience is really a prerequisite. Almost every activity of the school comes under the jurisdiction of the president and it is essential that he should have a mind of his own and be able to use it.

Paul Anderson as Second Year President of 3T9 and this year as Second Vice-President of the Engineering Society has had the opportunity to obtain this experience and has made the most of it. The ability to organize and to thoroughly carry a thing started through to completion, are two attributes he has shown he possesses.

In everything he has undertaken he has put energy, thought, and imagination, amply illustrating his capability of assuming the job of president. Vote P. C. Anderson for President of the Engineering Society and be sure of maintaining the high standards it has built up in the past.

She: Are you a big man on the campus?

He: Well, I dunno about that, but I'm the big noise at the library.

3T9 PRESIDENT

ART KINGSMILL PRESIDENT ENGINEERING SOCIETY

Gentlemen:—

What are necessary attributes for a president of our Engineering Society? The man who fills this important position in School life must be, first of all, a real Schoolman, an industrious and hard-working executive with a complete understanding of the job. He must be a good speaker; he must have personality and character. He is to be your representative inside and outside of S.P.S. and the University, and therefore it is esstntial that he be a gentleman and a leader.

In all School there is no man better qualified and trained for this responsible position than

ART KINGSMILL

President of his first year,
Past Treasurer of the Engineering Society,
Chairman Elect of the M. & M. Club.

The logical vote is the vote for Kingsmill.

HART HOUSE ELECTIONS

On Wednesday, March 9th, the annual Hart House elections will be held in a manner that closely rivals School elections for noise and action. No other faculty receives as much benefit from Hart House as does School and for that reason it is necessary that School be well represented on the various committees. It is true that each faculty has one representative on a committee, but this is true only provided he polls the necessary three hundred votes. So, don't forget Hart House elections in the excitement of School elections. For names of candidates see the Bulletin Board in front of the Hall Porter's Desk, Hart House.

MURRAY SCOTT FOR SECOND VICE-PRESIDENT ENGINEERING SOCIETY

"VOTE AS YOU LIKE BUT VOTE FOR SCOTT". Every Schoolman on Friday should take a few minutes, on the way to the Waverley or the Casino, to drop into the Engineering Building and vote—and Gentlemen it is our unaffected, unprejudiced and completely unbiased opinion that when you vote for the position of Second Vice-President of the Engineering Society, that Murray Scott, the President of Second Year, is the most effective, experienced and logical man.

"JEEP" DEWAR FOR SECOND VICE-PRESIDENT ENG. SOC.

Gentlemen:—

Selection of a Second Vice-President should be made entirely on the candidate's experience and ability. "Jeep" Dewar has this experience and ability. Look at his record:

—President of his first year during which time he made $350 for the year.
—Secretary of the Engineering Society where he learned the functions and duties of each member.
—School Nite for the past two years—this year as Prof. Adam Knitwit.
—School Dinner auction sale and as Judge Daring in the inter-period skit at the stadium.

Re-elect "Jeep" Dewar to the Engineering Society for a capable, honest, business administration of the Supply Department.

ELECTRICAL CLUB DINNER

Engineers' Club

Tuesday, March 8th, 7 p.m.

MECHANICAL CLUB DINNER

WALKER HOUSE HOTEL

Thursday, March 11th, 6.30 p.m.

•

DON'T FORGET THE PARADE AT NOON ON FRIDAY, TO HART HOUSE

•

EXPERIENCE COUNTS

When you are electing the First Vice-President of the Engineering Society, remember that this job requires experience. School Dinner, School At-Home and School Nite do not run themselves. Experience, ability to organize and unlimited energy are essentials.

A. A. "Jock" McArthur as First Vice-President assures Schoolmen of a successful School Dinner in the old tradition; a glorious At-Home, and School Nite as only a School Nite can be. He has served on all three committees during the past season and at the same time has held office as president of third year.

ELECT McARTHUR FIRST VICE-PRESIDENT of the ENGINEERING SOCIETY. From experience he delivers the goods.

GEORGE DEWART FOR FIRST VICE-PRESIDENT

Gentlemen:—

The important School social functions during the year include: School Dinner, School At-Home, School Nite. If these are to be a success they must be successfully managed; the man to do this is George Dewart.

George is capable of giving Schoolmen the entertainment they deserve. He has the personality, the ability and the experience to make these functions bigger and better than ever.

—A vote for George is a vote worth while.

DEBATES CLUB

Two more events remain on the Debates Club docket for this season. First is the final Segsworth Trophy debate, in which fourth year meets third year for the championship of School. The subject is a lively one, "This House Supports the Construction of the St. Lawrence Seaway", and Allan Wickett and Cy Read of third year will speak for the affirmative, Bob Bales and Quentin Jackson will take the negative for fourth year.

The meeting will be held THURSDAY, MARCH 10th, at 5.10 p.m., in Hart House, West Common Room. It is hoped that Mr. W. E. Segsworth, donor of the trophy, may be able to be on hand to present the trophy to the winning year, and the "40 beers" steins to each winning team member.

Come on out and hear this final debate.

Our final event will be the Impromptu Speaking Contest. CASH PRIZES of $5.00, $3.00, $2.00, will be awarded for the best extemporaneous talk of three minutes' durations, on a subject drawn from a hat by the speaker three minutes before he is to speak. Everyone tries his skill at this meeting, and it provides a lot of interest and laughs. Watch for the date!

and vote
